PROJECTS

Sweetolics

Online cake booking application

- A Cake Booking application using the Flutter framework, focusing on delivering an intuitive and user-friendly experience.
- Secure user and admin login functionality with google.
- Features for browsing available cakes, adding custom cake orders, offering items, and tracking provided orders.
- Utilized Flutter's performance optimization to maintain smooth navigation and quick loading times, enhancing overall user satisfaction.

Busway

Online bus ticket booking web application

- A fully functional online bus ticket booking website using a combination of HTML, PHP, Bootstrap, and JavaScript.
- Online bus ticket booking tool used by private travel agencies and bus depots with only admin login.
- Set starting and arrival locations as well as the duration of the trip, establish and manage different routes and destinations, and add, update, and remove bus data such as type, capacity, and facilities.

A worldly view

Travel agency website

- Designed and developed a responsive and user-friendly travel agency website using HTML, CSS, and JavaScript.
- Added interactive components to the website, such as a contact form, an image slider, or a search bar, by implementing JavaScript capability.
